Last day to register is November 19, 2009

Dr. Toril Jelter, MD, FAAP, and Biomedical Specialist using the Defeat Autism Now! approach, will see patients on **Saturday & Sunday from 8:30am to 5:30pm** by appointment only. Our goal is to improve the health and well-being of individuals using integrative medicine; in particular, natural and biomedical treatment options. Specialized testing, not available at traditional labs, will be offered. These tests are designed to determine abnormalities associated with heavy metal toxins, intestinal pathogens, metabolic disorders, food allergies, nutritional deficiencies, immune deficiencies, and more.

Dr. Jelter is a board certified pediatrician specializing in medical and environmental aspects of autism. She received her medical degree from the University of Oslo, Norway graduating with honors in 1985. Dr. Jelter's pediatric training was at Columbia University College of Physicians and Surgeons. She is affiliated with John Muir medical Center and has received a physician recognition award for continuing medical education.

Dr. Jelter has participated in Defeat Autism Now training and is a fellow of the American Academy of Pediatrics. Dr. Jelter's goal is to improve overall function for each child in the most efficacious, safest, and affordable manner possible.

The **Primary Autism Panel (PAP)** is offered at a discounted price of \$1,222 for a **savings of \$306.00** to anyone using the PROMPT PAY (Credit Card or Check) method.

Tests	Prompt Pay Price	List Price
Organic Acid Test & Culture Sensitivity	\$340.00	\$399.00
Urinary Peptide	\$110.00	\$110.00
IgG Food Allergy Basic	\$219.00	Not covered*
Copper/Zinc Profile	\$165.00	\$215.00
Immune Deficiency Profile	\$239.00	\$299.00
Toxic Metal Hair	\$135.00	\$245.00
C-reactive Protein	\$70.00	\$85.00
Streptococcus Antibodies Profile	\$70.00	\$85.00
Pre-albumin	\$70.00	\$85.00
Advanced Cholesterol Profile	\$110.00	\$110.00
Regular Cash Price	\$1528.00	\$1633.00

PROMPT PAY PRICE **\$1222.00**

***Please note that the IgG Food Allergy Testing may not be covered by Blue Cross/Blue Shield insurance. This test must be paid for via cash, check or credit card at the clinic. Three hour fasting is recommended before the blood draw for the Advanced Cholesterol Profile and the Immune Deficiency Profile. It is encouraged to increase fluid intake at least 24 hours prior to appointment, which will help with the blood draw process.**

The Great Plains Laboratory, Inc. (GPL) will provide an experienced Pediatric Phlebotomist to perform all laboratory procedures for blood collection at the Outreach Clinic. **The fee for phlebotomy is \$30.** All other specimens, including urine and stool will be collected at home. Any other recommended test kits will be given to patient/parents to take home from the clinic. All kits will have a prepaid FedEx envelope to return to GPL once specimen collection has been completed. Results of testing will be sent to Dr. Jelter's office within 4-6 weeks.

The fee for Dr. Jelter's initial 30-minute visit is \$165.00 and is due at the time of your appointment in the form of a check or cash. Dr. Jelter will develop a treatment plan for each patient individually according to the results of their testing and can provide follow-up appointments in her private office or over the phone to review laboratory test results with patients and their families. **The initial laboratory follow-up appointment takes 1 hour and is billed at \$300.00 for office follow-up and \$240.00 for phone follow-up. Please note, this amount is billed separately and is not included in the outreach consultation fee or laboratory-testing fee.** We will provide information regarding the physician's phone number and office hours at your Outreach Clinic appointment.

The Great Plains Laboratory, Inc (GPL) is a preferred provider for ****Blue Cross Blue Shield PPO insurance****. This is the **ONLY** insurance that GPL will accept at an outreach clinic for laboratory testing and phlebotomy. This does **NOT** mean that every BCBS PPO plan will cover any or all of the testing at 100%. **We suggest that each individual contact their BCBS insurance provider and provide them the Current Procedural Terminology "CPT" codes, which will be provided to you from GPL on request.** Please advise your insurance company that you would like to do testing with The Great Plains Laboratory, Inc., provide them with the CPT codes for the desired testing and ask them exactly what your "out of pocket" costs will be.

Please be advised that we are unable to accept Medicare, Medicaid, Champus or Tricare plans for payment of any fees and services at the outreach clinic. It is your responsibility to check with your insurance company to find out what they will cover and what your co-pays and deductibles are. The special discounted prices do **NOT** apply to anyone for whom we are filing insurance. It is meant for those that cannot have their testing covered by insurance. This means that individual insurance prices will apply for each test (as quoted above) for those that want to submit through insurance. If not, the total amount is due at the time of the appointment and can be paid by check or credit card. You will receive a medical receipt with CPT and diagnostic codes that can be submitted to your insurance company (by you) for reimbursement. Many insurance companies will cover at least a portion of laboratory testing through The Great Plains Laboratory, Inc., but HMO's typically will not provide any coverage.

Cancellation Policy: The Great Plains Laboratory, Inc. has enacted a policy requiring each Outreach Clinic to have a minimum of 15 patients signed up 14 calendar days before the clinic date. Such policies must be enforced in order to prevent last-minute sign-ups and to ensure accurate planning. This does not mean that we will not take appointments after the 14-day cutoff; however, we ask that patients schedule their appointments as soon as possible in order for us to ensure that the clinic will take place. **In the event of a cancellation, please contact The Outreach Team at 859-261-4503 at least 72 hours prior to the appointment. Failure to do so could result in a charge to your credit card in the amount of the physician's fee.**

You are receiving this flyer because you have done testing with GPL, attended a GPL conference, or at one time did business with GPL and opted to receive information about upcoming offers or new testing developments. If you no longer wish to receive mailings from GPL, please visit the following website at <http://gplstoreonline.com/listserv/?p=unsubscribe>.
